HEY,  
WATCH  
WHERE  
YOU'RE  
WALKING!

BRANDY WITH AN  
ACTUAL BONE!

## SUPER-TINY

### DOG

This dog just might be man's tiniest friend. Only six inches long, Heaven Sent Brandy holds the record for the smallest dog from nose to tail tip. About the same length as a dollar bill, this little pooch can't even bark. But she doesn't need to make much noise for dinner—all she eats are bits of dry dog food and some mashed scrambled eggs.

### SPEEDY ROBOT

This guy may need running shoes. Clocking in at 5.6 miles an hour, ASIMO is the fastest running humanoid robot in the world. The bot's secret? Highly responsive hardware and flexible joints allow it to move like a human. Don't worry about being outrun by a robot, though. ASIMO sprints at a little over half the speed of an average jogger.

## GINORMOUS SKATEBOARD

Too bad no one can do any tricks on this skateboard. Measuring 36 feet 7 inches long and 3 feet 7½ inches tall, the longest skateboard is almost the same length as a standard school bus. Up to ten riders can fit on the board, which is equipped with four race-car tires for a smooth ride. Now where's the giant half-pipe?
